SUMMARY

Motivated and detail-oriented Full Stack Developer (Fresher) with hands-on experience in MERN stack development. Skilled in building scalable web applications, RESTful APIs, and authentication systems. Passionate about solving real-world problems through clean and efficient code, with a strong eagerness to learn and grow in a dynamic development environment.

PROJECTS

- **Travel Booking Web Application (Full Stack)**

Developed a full-stack travel booking platform using the MERN stack that allows users to search and book flights, hotels, buses, and trains. Built a responsive user interface with React.js and Tailwind CSS, integrated RESTful APIs using Node.js and Express.js, and managed application state using Redux for a smooth user experience.

- **Authentication System (MERN Stack)**

Built a secure authentication system using JWT and Google OAuth, enabling user registration and login with protected routes and role-based access control. Focused on ensuring secure user sessions and efficient authorization within the application.
